

CTPark Lviv

OVERVIEW

CTPark Lviv is located on a 23 hectare plot of land in the north-west part of the city, close to the M10 road with good connections to Poland, Hungary, Slovakia and other regions. Lviv is an important political, economic, cultural and scientific hub in Western Ukraine. The city is conveniently located in the geographical centre of Europe, 60 km to the Polish border, straddling two pan-European transport corridors (III and V).

- 53 academic institutions nearby, more than 130,000 students
- Close by the M10 highway with good international access
- Located within city bounds, with good access to skilled labour
- Good cooperation with local government and municipalities
- Ideal for high-tech production, logistics, automotive, engineering
- Experienced, educated staff and low-cost environment
